

ILLUSIONS FLAT PANEL INSERT SERIES

***Flat panel light source by others

The Illusions Flat Panel Insert series is unlike anything else. These acrylic inserts give a 3D effect to your standard flat panel. Transform any room with these types of lights by using a cost effective, decorative insert. You can even personalize a space by using your logo or custom design. The best part is, these inserts are sold on their own, so you can use any flat panel source you prefer, new or existing. Light loss levels are only 3% to 7% for all designs except clouds (35%) and drop lenses (20%).
